When the main power is on, you can use this button to turn your projector on.

NOTE: To turn on the projector, press and hold the POWER button for about 1 second.

You can use this button to turn your projector off.

NOTE: To turn off the projector, press this button twice.

3. INFO. Button
Provides the information on the current signal and projector settings. See page 49.

4. IMAGE Button
Press this button to display the Image adjustment menu to adjust Image mode, Brightness, Contrast, Sharpness, Color level and Color balance. See pages 41 to 42.

5. INPUT Button
Selecting from INPUT List
Press and quickly release the INPUT button to display the INPUT list. Each time the INPUT button is pressed, the input source will change as follows: "Computer 1*", "Computer 2*", "Video" (VCR or laser disc player), "S-Video", To display the selected source, press the OK button or allow 2 seconds to elapse.

Detecting the Signal Automatically
Press and hold the INPUT button for a minimum of 2 seconds, the projector will search for the next available input source. Each time you press and hold the INPUT button for a minimum of 2 seconds, the input source will change as follows:
Computer 1* → Computer 2* → Video → S-Video → Computer1 → ...

* Computer on LV-X6

6. AUTO PC Button
Use this button to adjust an RGB source for an optimal picture.
See page 27.

7. ASPECT Button
Press this button once to display the Aspect select menu. Keep pressing will change aspect ratios. See page 42.

8. NO SHOW Button
This button turns off the image and sound for a short period of time. Press again to restore the image and sound.

9. MENU Button
Displays the menu for various settings and adjustments.

10. SELECT ⊗⊗⊗⊗ (Mouse) Button
⊗⊗: Use these buttons to select the menu of the item you wish to adjust.
⊗⊗: Use these buttons to change the level of a selected menu item. A press of the ⊗ button executes the selection.
When an image is magnified, the SELECT ⊗⊗⊗⊗ button moves the image. See page 30.
This button also works as a computer mouse when the supplied remote mouse receiver is connected with your computer. See page 32. (Not available on LV-X6)

16. PAGE ▲/▼ Button
(Not available on LV-X6)
Use these buttons to operate your computer with the supplied remote mouse receiver. See page 32. You can use these buttons to scroll the viewing area of the window or to move to the previous or next slide in PowerPoint on your computer.

17. D. ZOOM (+) (–) Button
Use this button to adjust the image size up to 400%. The image is magnified about the center of the screen. See page 30.

18. FREEZE Button
This button will freeze a picture. Press again to resume motion. See page 30.

11. OK Button
Use this button to enter your menu selection. It works the same way as the OK button on the cabinet. See page 6.

12. BACK Button
It works the same way as the BACK button on the cabinet. See page 6.

13. L-CLICK Button
(Not available on LV-X6)
This button works as the mouse left button when the supplied remote mouse receiver is connected with your computer. See page 32.

**14. R-CLICK Button**
(Not available on LV-X6)
This button works as the mouse right button when the supplied remote mouse receiver is connected with your computer. See page 32.
15. VOL (+) (–) Button
Press (+) to increase the volume and (–) to decrease it.

Battery Installation

1 Press firmly and slide the battery cover off.

2 Remove both old batteries and install new ones (AAA). Ensure that you have the batteries' polarity (+/−) aligned correctly.
3 Slip the cover back over the batteries until it snaps into place. Do not mix different types of batteries or new and old batteries.

Remote Control Precautions

- Handle the remote control carefully.
- If the remote control gets wet, wipe it dry immediately.
- Avoid excessive heat and humidity.
- Do not heat, take apart, or throw batteries into fire.
- Ensure that you have the batteries' polarity (+/-) aligned correctly.
- If you will not be using the remote control for a long time, remove the batteries.
- Do not place the batteries upside down.
- Do not use new and old batteries together, or use different types of batteries together.
- Dispose of used batteries according to your local regulations.

Operating Range for Wireless Remote Control

30°

7m/22 feet

NOTE: The LV-X6 does not have the remote sensor on the rear panel.

- The infrared signal operates by line-of-sight up to a distance of about 7 m (22 feet) and within a 60-degree angle of the remote sensor on the projector cabinet.
- The projector will not respond if there are objects between the remote control and the sensor, or if strong light falls on the sensor. Weak batteries will also prevent the remote control from properly operating the projector.
❹ Using the Remote Mouse Receiver (LV-7250 only)

The remote mouse receiver enables you to operate your computer's mouse functions from the remote control. It is a great convenience for clicking through your computer-generated presentations.
Connecting the remote mouse receiver to your computer

If you wish to use the remote mouse function, connect the mouse receiver and computer.
The mouse receiver can be connected directly to the computer's USB port (type A).

NOTE: Depending on the type of connection or OS installed on your computer, you may have to restart your computer or change your computer settings.

Remote Control Precautions

- Handle the remote control carefully.
- If the remote control gets wet, wipe it dry immediately.
- Avoid excessive heat and humidity.
- Do not heat, take apart, or throw batteries into fire.
- Ensure that you have the batteries' polarity (+/-) aligned correctly.
- If you will not be using the remote control for a long time, remove the batteries.
- Do not place the batteries upside down.
- Do not use new and old batteries together, or use different types of batteries together.
- Dispose of used batteries according to your local regulations.

When connecting using the USB terminal

For PC, the mouse receiver can only be used with a Windows 98/Me/XP*, Windows 2000 or Mac OS X 10.0.0 or later operating system.

* NOTE: In SP1 or older version of Windows XP, if the mouse cursor will not move correctly, do the following:
Clear the Enhance pointer precision check box underneath the mouse speed slider in the Mouse Properties dialog box [Pointer Options tab].

NOTE: Wait at least 5 seconds after disconnecting the mouse receiver before reconnecting it and vice versa. The computer may not identify the mouse receiver if it is repeatedly connected and disconnected in rapid intervals.

Operating your computer's mouse from the remote control

You can operate your computer's mouse from the remote control.

PAGE ▲/▼ Button .... scrolls the viewing area of the window or to move to the previous or next slide in PowerPoint on your computer.

⊘⊘⊘⊘ / Mouse Buttons ..... moves the mouse cursor on your computer.

L-CLICK Button .... works as the mouse left button.

R-CLICK Button .... works as the mouse right button.

About Drag Mode

By pressing the L-CLICK or R-CLICK button for 2 or 3 seconds then releasing, the drag mode is set and the drag operation can be performed simply by pressing the SELECT ⊘⊘⊘⊘ button. To drop the item, press the L-CLICK (or R-CLICK) button. To cancel it, press the R-CLICK (or L-CLICK) button.

NOTE: When you operate the computer using the SELECT ⊘⊘⊘ or ⊘ button with the menu displayed, both the menu and the mouse pointer will be affected. Close the menu and perform the mouse operation.

TIP: You can change the Pointer speed on the Mouse Properties dialog box on the Windows. For more information, see the user documentation or online help supplied with your computer.
