

Cautions on Handling

• Before turning the power switch on

Check once again that all connections are correct and that there are no problems with the connection cables.

- Power is supplied to some of the circuitry even when the unit is set to the standby mode. When traveling or leaving home for long periods of time, be sure to unplug the power cord from the power outlet.

• About condensation

If there is a major difference in temperature between the inside of the unit and the surroundings, condensation (dew) may form on the operating parts inside the unit, causing the unit not to operate properly.

If this happens, let the unit sit for an hour or two with the power turned off and wait until there is little difference in temperature before using the unit.

• Cautions on using mobile phones

Using a mobile phone near this unit may result in noise. If so, move the mobile phone away from this unit when it is in use.

• Moving the unit

Turn off the power and unplug the power cord from the power outlet.

Next, disconnect the connection cables to other system units before moving the unit.

- Note that the illustrations in these instructions may differ from the actual unit for explanation purposes.

Cautions on Installation

Note:

For proper heat dispersal, do not install this unit in a confined space, such as a bookcase or similar enclosure.

About the Remote Control Unit

In addition to the AVR-1508, the included remote control unit (RC-1075) can also be used to operate the equipment listed below.

- ① DENON system components
- ② Non-DENON system components
 - By setting the preset memory (see page 39 ~ 41)

Inserting the Batteries

- ① Lift the clasp and remove the rear lid.
- ② Load the two batteries properly as indicated by the marks in the battery compartment.

- ③ Put the rear cover back on.

NOTE

- Replace the batteries with new ones if the set does not operate even when the remote control unit is operated close to the unit.
- The supplied batteries are only for verifying operation.
- When inserting the batteries, be sure to do so in the proper direction, following the "⊕" and "⊖" marks in the battery compartment.
- To prevent damage or leakage of battery fluid:
 - Do not use a new battery together with an old one.
 - Do not use two different types of batteries.
 - Do not attempt to charge dry batteries.
 - Do not short-circuit, disassemble, heat or dispose of batteries in flames.
- If the battery fluid should leak, carefully wipe the fluid off the inside of the battery compartment and insert new batteries.
- Remove the batteries from the remote control unit if it will not be in use for long periods.
- When replacing the batteries, have the new batteries ready and insert them as quickly as possible.

Operating Range of the Remote Control Unit

Point the remote control unit at the remote sensor when operating it.

NOTE

The set may function improperly or the remote control unit may not operate if the remote control sensor is exposed to direct sunlight, strong artificial light from an inverter type fluorescent lamp or infrared light.

Remote Control Unit

[Front]

- 1 Indicator (39)
- 2 Power buttons (31)
- 3 Tuner system buttons (33, 40)
- 4 Source select buttons (31, 44)
- 5 System buttons (36, 40)
- 6 Video select button (V. SELECT) (32)
- 7 Cursor buttons (Δ ▽ ◀ ▶) (19, 40)
- 8 DIMMER button (32)
- 9 Mode selector switches (40, 44)
- 10 Remote control signal transmitter
- 11 Master volume control buttons (31, 44)
- 12 MUTING button (32, 44)
- 13 NIGHT button (29)
- 14 STATUS button (32)
- 15 Channel select (CH SEL) / ENTER button (19, 40)

[Rear]

- 1 ZONE2 power buttons (44)
- 2 Source select buttons (31, 44)
- 3 Tuner system buttons (32, 33)
- 4 Test tone button (TEST) (21, 22)
- 5 Main zone power buttons (MAIN) (39)
- 6 Surround mode buttons (25, 26)
- 7 System Setup button (SYSTEM) (19)
- 8 Surround parameter button (PARA) (27)
- 9 Enter button (ENT) (19, 40)
- 10 Input mode button (INPUT) (31)
- 11 Cursor buttons (Δ ▽ ◀ ▶) (19, 40)

NOTE

If buttons on the front or rear are pressed strongly, the button on the opposite side will be activated too.

Remote Control Unit Operations

[Front]

[Rear]

Depending on the model and year of manufacture of your equipment, some buttons may not operate.

Operating DENON Audio Components

- 1 Set **[MODE SELECTOR 1]** to "AUDIO".
 - 2 Set **[MODE SELECTOR 2]** to the position for the component to be operated (CD, iPod/NETWORK or TAPE/CD-R/MD).
 - 3 Operate the audio component.
- ※ For details, refer to the component's operating instructions.
 ※ While this remote control is compatible with a wide range of infrared controlled components, it may be the case that some component models cannot be operated with this remote control.

Presetting

- DENON and other makes of components can be operated by setting the preset memory.
- This remote control unit can be used to operate components of other manufacturers without using the learning function by registering the manufacturer of the component as shown in the list of preset codes (End of this manual).
- Operation is not possible for some models.

- 1 Set **[MODE SELECTOR 1]** to "AUDIO" or "VIDEO".
 ※ Set to the AUDIO side for the CD, iPod/NETWORK or TAPE/CD-R/MD position, and to the VIDEO side for the DVD/VDR VCR, SAT/CABLE or TV position.
- 2 Set **[MODE SELECTOR 2]** to the component to be registered.
- 3 Press **[ZONE2 OFF]** and **[MAIN ON]** at the same time.
 The indicator starts flashing.
- 4 Referring to the included list of preset codes, press **[NUMBER]** to input the preset code (a 3-digit number) for the manufacturer of the component whose signals you want to store in the memory.
- 5 To store the codes of another component in the memory, repeat steps 1 to 4.

- The signals for the pressed buttons are emitted while setting the preset memory. To avoid accidental operation, cover the remote control unit's transmitting window while setting the preset memory.
- Depending on the model and year of manufacture, this function cannot be used for some models, even if they are of makes listed in the list of preset codes.
- Some manufacturers use more than one type of remote control code. Refer to the included list of preset codes to change the number and verify correct operation.
- The preset memory can be set for one component only among the following: TAPE/CD-R/MD, DVD/VDR and SAT/CABLE.

Operating Preset Components

- 1 Set **[MODE SELECTOR 1]** to "AUDIO" or "VIDEO".
 ※ Set to the AUDIO side for the CD, iPod/NETWORK or TAPE/CD-R/MD position, and to the VIDEO side for the DVD/VDR VCR, SAT/CABLE or TV position.
- 2 Set **[MODE SELECTOR 2]** to the component you want to operate.
- 3 Operate the component.
 ※ For details, refer to the component's operating instructions.
 ※ Some models cannot be operated with this remote control unit.

Special Remarks	①	—	①			①, ②		①	①, ③		①, ③

Special Remarks

- ① Only one device can be set in the preset memory for each mode. Also, when a new code is preset, the previous code is automatically deleted.
- ② For some brands, the DVD remote control buttons may have different function names. Check beforehand.
- ③ One of the following buttons can be assigned to the TV and satellite tuner or cable TV: CD, iPod/NETWORK, TAPE/CD-R/MD, DVD/VDP, VCR (see page 42 "Punch Through Function").

The diagram shows the Denon remote control with various buttons labeled. Two callouts are present:

- [MODE SELECTOR 1]**: Points to the **MODE SELECTOR** button, which is a large circular button with a right-pointing triangle.
- [MODE SELECTOR 2]**: Points to the **MODE SELECTOR** button, which is a large circular button with a right-pointing triangle.

A detailed diagram of a remote control keypad. The keypad is rectangular with rounded ends. At the top, there are four small circular buttons labeled "POWER", "PAUSE", "STOP", and "EJECT". Below these are four larger circular buttons labeled "1", "2", "3", and "4". In the center, there is a numeric keypad with buttons for "0", "1", "2", "3", "4", "5", "6", "7", "8", and "9". To the left of the numeric keypad are two buttons labeled "CALLBACK" and "RECALL". To the right are two buttons labeled "VIEW" and "VIEW". Below the numeric keypad are two buttons labeled "BACK" and "FWD". At the bottom of the keypad are three buttons labeled "MEMORY", "RETURN", and "STOP". A line points from the label "[NUMBER]" to the numeric keypad. Another line points from the label "[MEMORY]" to the "MEMORY" button. A third line points from the label "[RETURN]" to the "RETURN" button.

"Punch Through" is a function allowing you to operate ►, ■, II, ◀, ◀◀, ▶▶, I◀◀ and ▶▶▶ on CD, iPod/NETWORK, TAPE/CD-R/MD, DVD/VDP or VCR components when in the SAT/CABLE or TV mode. By default, nothing is set.

- 1** Set **[MODE SELECTOR 1]** to "VIDEO".
- 2** Set **[MODE SELECTOR 2]** to the component to be registered (SAT/CABLE or TV).
- 3** Press **[MEMORY]** and **[RETURN]** at the same time.
The indicator starts flashing.
- 4** Input the number of the component you want to set.
