

THE REMOTE CONTROL

In addition to controlling all the functions on your HITACHI Color TV, the new remote control is designed to operate different types of VCRs, DVD, CATV (Cable TV), and satellite converters with one touch. Basic operation keys are grouped together in one area.

To operate your TV, point the remote control at the remote sensor of the TV and press the TV button. The remote will now control your television.

To operate your DVD/VCR, point the remote at the remote sensor of the VCR and press the VCR button. The remote will now control your VCR. (See page 28 for instructions on how to program the remote to control your VCR.)

To operate your cable/satellite box, point the remote at the remote sensor of the cable/satellite box and press the CBL/SAT button. The remote will now control your cable/satellite box. (See page 29 for instructions on how to program the remote to control your cable/satellite box.)

HOW TO USE THE REMOTE TO CONTROL YOUR TV

A detailed explanation of the circled numbers follows on pages 22 to 24.

HOW TO USE THE REMOTE TO CONTROL YOUR TV

① TV POWER button

Press this button to turn the TV set on or off.

② SLEEP button

Press this button to display the SLEEP TIMER in the lower left corner of the screen. Every subsequent press of this button will add 15 minutes to the timer, up to a maximum of three hours.

③ MENU, CURSOR buttons

All On-Screen Display features can be set or adjusted by using these buttons.

The MENU button will start the On-Screen Display.

The CURSOR buttons will highlight functions or adjust and set different features when MENU is pressed.

The CURSOR button will move PIP position when PIP is on. (32/36UX01S models only)

CURSOR buttons will also give you access to FAMILY FAVORITES On-Screen Display.

④ CHANNEL SELECTOR buttons

Enter two or three numbers to select channels. Enter 0 first for channels 1 to 9. For channels 100 and above, press the 1 button and wait for two seconds before pressing the last two digits of the channel.

Channel selection may also be performed by pressing CH up (▲) or down (▼).

You may also use these buttons for channel scanning. Press and hold the CH up (▲) or down (▼) buttons and the TV will start quickly scanning through the channels. Release the CH up (▲) or down (▼) buttons when the TV scans to the channel you wish to watch and the TV will tune to that channel.

NOTE: The TV may not receive some channels if you are not in the correct SIGNAL SOURCE mode. (see page 35)

⑤ LAST CHANNEL button

Use this button to select between the last two channels viewed. (Good for watching two sporting events, etc.)

⑥ INPUT button 32GX01B and 36GX01B models

The INPUT button will select between antenna signal and the video inputs.

32UX01S and 36UX01S models

The INPUT button will select between both antenna signals and the video input; if the Sub-picture is on, and the main picture is chosen with the PIP CH, the main picture will alternate between the video inputs and both antenna sources by every press of the INPUT button, if the Sub-Picture is chosen with the PIP CH, the Sub-Picture will alternate between the video inputs and Antenna A source by every press of the input button.

- NOTE:**
1. 32/36UX01S models, antenna B can not be displayed as a Sub-Picture.
 2. Y-PBPR can not be displayed as a Sub-Picture.
 3. Signals priority:
 - Component Signal (Y-PBPR); Has the highest priority when connected in VIDEO 2 mode.
 - Super Video Signal; Has a higher priority than the normal video signal in VIDEO 1 mode.

HOW TO USE THE REMOTE TO CONTROL YOUR TV

⑦ VOLUME, MUTE buttons

Press the VOLUME up (▲) or down (▼) button until you obtain the desired sound level.

To reduce the sound to one half of normal volume (SOFT MUTE) to answer the telephone, etc., press the MUTE button. Press the MUTE button again to turn the sound off completely (MUTE). To restore the sound, press the MUTE button one more time, or press the VOLUME up (▲) button.

⑧ PICTURE-IN-PICTURE (32/36UX01S models)

See separate section on pages 25-27 for a description.

⑨ PIP CH button (32/36UX01S models)

Use the PIP CH button to select between main picture and sub-picture tuning. The gray background on the channel number will indicate which channel is being controlled. This function is not available on 32/36GX01B models.

⑩ EXIT button

When in MENU mode, this button will exit all On-Screen Displays.

⑪ HELP button

Press this button if help is needed to change menu setting, and our context sensitive help system will provide explanations and/or directions for whatever function your cursor is on at that time. Press this button again to cancel the help messages.

⑫ COMMERCIAL SKIP button

Press this button to access the COMMERCIAL SKIP (CS) function. The COMMERCIAL SKIP timer icon will be displayed in the lower left corner of the screen beginning from 30 seconds of time out. Every subsequent press of this button will add 30 seconds to the COMMERCIAL SKIP timer, up to a maximum of 180 seconds. In COMMERCIAL SKIP, you can change to any station you wish to view with CH up (▲) or down (▼) and the digit keys, but after the COMMERCIAL SKIP timer reaches zero, it automatically changes back to the original station.

⑬ RECALL button

Press this button when no menu is displayed to enable RECALL function. Use the RECALL function to check the channel being received, or if it has stereo (ST) or second audio (SAP).

You can also check the time, CHANNEL and VIDEO ID, if they are set.

USING THE REMOTE TO CONTROL VCR FUNCTIONS

Operating the precoded function for your VCR.

This remote is designed to operate different types of VCRs. You must first program the remote to match the remote system of your VCR. (refer to page 31)

1. Turn ON your VCR.
2. Aim the remote control at the front of your VCR.
3. Press the DVD/VCR button to switch to the VCR pre-coded mode.
4. Hold down the DVD/VCR button on the remote, enter the two digit preset code that matches your VCR as shown on page 31. The remote will turn off your VCR when the correct two digit preset code is entered. When this occurs, the remote control is programmed for your VCR. If the VCR does not turn off after five seconds, try a different two digit preset code.
5. The remote will now control your VCR.

NOTES:

1. If your VCR cannot be operated after performing the above procedures, your VCR's code has not been precoded into the remote.
2. In the unlikely event that your VCR cannot be operated after performing the above procedures, please consult your VCR operating guide.
3. The remote control will remember the codes you have programmed until the batteries are removed from the remote control. After replacing the batteries repeat the entire programming procedure as stated above.
4. The INPUT button will act as your VCR 100 button if required.

NOTE: Refer to instruction manual of the VCR for operation of the buttons exclusively for the VCR.

USING THE REMOTE TO CONTROL DVD FUNCTIONS

Operating the precoded function for your DVD Player.

This remote is designed to operate different types of DVD Players. You must first program the remote to match the remote system of your DVD Player. (refer to page 31)

1. Turn ON your DVD Player.
2. Aim the remote control at the front of your DVD Player.
3. Press the DVD/VCR button to switch to the DVD Player pre-coded mode.
4. Hold down the DVD/VCR button on the remote, enter the two digit preset code that matches your DVD Player as shown on page 31. The remote will turn off your DVD Player when the correct two digit preset code is entered. When this occurs, the remote control is programmed for your DVD Player. If the DVD Player does not turn off after five seconds, try a different two digit preset code.
5. The remote will now control you DVD Player.

NOTES:

1. If your DVD Player cannot be operated after performing the above procedures, your DVD Player's code has not been precoded into the remote.
2. In the unlikely event that your DVD Player cannot be operated after performing the above procedures, please consult your DVD Player operating guide.
3. The remote control will remember the codes you have programmed until the batteries are removed from the remote control. After replacing the batteries repeat the entire programming procedure as stated above.

NOTE: Refer to instruction manual of the DVD Player for operation of the buttons exclusively for the DVD Player.

USING THE REMOTE TO CONTROL CABLE BOX/SATELLITE FUNCTIONS

Operating the precoded function for your cable/satellite box.

This remote is designed to operate different types of cable boxes and satellite systems. You must first program the remote to match the remote system of your cable/satellite box. (refer to page 31)

1. Turn ON your cable/satellite box.
2. Aim the remote control at the front of your cable/satellite box.
3. Press the CBL/SAT button to switch to the cable/satellite box pre-coded mode.
4. Hold down the CBL/SAT button on the remote, enter the two digit preset code that matches your cable/satellite box as shown on page 31. The remote will turn off your cable/satellite box when the correct two digit preset code is entered. When this occurs, the remote control is programmed for your cable/satellite box. If the cable/satellite box does not turn off after five seconds, try a different two digit preset code.
5. The remote will now control you cable/satellite box.

NOTES:

1. If your cable/satellite box cannot be operated after performing the above procedures, your cable/satellite box s code has not been precoded into the remote.
2. In the unlikely event that your cable/satellite box cannot be operated after performing the above procedures, please consult your cable/satellite box s operating guide.
3. The remote control will remember the codes you have programmed until the batteries are removed from the remote control. After replacing the batteries repeat the entire programming procedure as stated above.
